

## THE WEDDING

An important day to a Bride and Groom. You have spent countless hours planning, decision making and imagining what your day will be like. Now that your day is in sight and you know you want to remember it always, call Forever Young Video Productions. We have years of experience in documenting weddings and we know you will never regret your decision to have us capture your big day.

Forever Young Video Productions has been producing Wedding Documentaries since 1990.

Our goals and objectives are to capture your wedding with crystal clear video and audio while never getting in the way of you or your guests.

## THE CEREMONY

We attach hidden wireless lapel mics on the officiate, groom and podium. We never use on camera lighting for the ceremony.

## RECEIVING LINE

Captured with a hidden mic, we feel this is an important part of your wedding day. Greetings from your guests are crystal clear, real and candid as they greet you following the ceremony.

We don't create action, We capture it!

## FORMAL PHOTO SHOOTS

We capture the formal photo shoot without ever interfering with your hired photographer.

## THE RECEPTION

We mic the DJ Booth or the bands sound system for crystal clear audio of the introductions, blessings & toasts and give you coverage to the last dance.

Remember a great video means great audio
